

Canterbury Durite Dashing Spar

Technical data sheet

Heidelberg Materials Canterbury Durite Dashing Spar consists of 3mm-8mm multi-coloured calcined flint.

For use as dry dashing, solar reflective roof dressing, pre-cast panels, epoxy based coatings, slip resistant floor finishes, exposed aggregate paving, and rolled dressing for drives and pathways.

This product is suitable for fish ponds or aquariums. We recommend that this product is re-washed in clean, fresh water prior to use.

Decorative aggregates are natural products and variations in size and colour may occur due to geographical and processing variables.

Pack size

Available in Maxipack and Bulk bags.

Health and safety

Please refer to Material Safety Data Sheet for full information.

Coverage

When used as dashing for walls the product of one Maxipack covers approximately 1.75m²
